US Indoor Kart Team Driver Rankings

U.S Team Driver rankings are scored on U.S. Held races only, below is a breakdown of how the Team Driver Point Standings are accumulated for these rankings, all Rankings start with the USIKC each year and run back to the USIKC the next year to give a year's standings. Drivers accumulate as a Team with each Driver scoring the same point totals as their Teammates. Because members within a Teams Structure change often Drivers are then shown individually, this allows stronger Team Drivers to be shown during the year higher in the overall Team rankings. As the year evolves standout Team Drivers will move to the top of the rankings.
